SOURAV PATTANAIK

National Institute of Science Education and Research (NISER), Jatni, India
Phone: (+91) 9337318337 | Email: souravpattanaik360@gmail.com | Website: https://sourav0369.github.io/profile/

Life Science graduate with a multidisciplinary research background. Experienced in developing computational workflows for understanding biological complexities. Interested in combining computational and experimental approaches to understand disease-associated mechanisms and guide therapeutic discovery.

EDUCATION

2021 – 2026 **Integrated Master of Science in Biology | Minor degree in Chemistry**
National Institute of Science Education and Research (NISER), India
Integrated CGPA: 8.40 / 10.0
Average Bachelor's (First six semesters) SGPA: 8.02 / 10.0
Average Master's (Last four semesters) SGPA: 8.96 / 10.0

2021 **12th Boards (CBSE)** | DAV School — **94.6%**
2019 **10th Boards (ICSE)** | Chinmaya Vidyalaya (E.M.) — **93.2%**

PUBLICATIONS

Peer-reviewed Publications

Rana S., **Pattanaik S.** (co-first author), Thakur R., Joshi V., Jindal N., Tiwari R. R., & Sahoo G. C. (2026). Computational design and validation of a multi-epitope vaccine candidate against structural proteins of Langya virus. *Letters in Drug Design & Discovery*, 100296. https://doi.org/10.1016/j.lddd.2026.100296 **Published**

Conference Abstracts

Pattanaik, S., Konkimalla, V. B. Directional Biological Network (DBN) Analysis Pro: A Computational tool for Mechanistically Informed Drug Discovery. Presented at *IndiBioCom 2026*. **Best Poster**

RESEARCH EXPERIENCE

2024 – 2026 **MASTER'S THESIS** | Supervisor: Dr. V Badireenath Konkimalla, NISER, India
"Integrating network-based drug discovery and stimulus-responsive drug carrier for treating testicular cancer through an in silico approach." **Project Coursework Average across four semesters - 9.25/10**

- Developed DBN Analysis Pro, a web tool to integrate transcriptomic, pathway, and protein-protein interaction data for mechanistic prioritization of therapeutic targets.
- Designed a novel dual-stimulus-responsive drug carrier using Intrinsically Disordered Proteins(IDPs) and studied its conformational dynamics using CG simulations.
- Leveraged atomistic simulations for studying protein-ligand interactions after virtual screening for a potential drug molecule among 1.8 million molecules in the PubChem Database.
- Methods: AlphaFold, GROMACS, CG (MARTINI)/Atomistic (CHARMM) MD Simulation, Pharmacophore modeling, Protein-DNA Docking, Network analysis.

May – July 2025 **SUMMER FELLOWSHIP** | Dr. Anbazhagan Kolandaswamy, RRMCH Bengaluru
"Discovery of Biomarkers for Sepsis Disease through comparative analysis of gene expression profiles."

- Optimized RNA extraction protocols and processed 52 patient blood samples, while maintaining high-integrity RNA extraction for quantitative profiling of 15 genetic targets(mRNA/miRNA).
- Identified 6 statistically significant potential biomarkers(P-values < 0.05).
- Methods: qPCR, RT-PCR, Biostatistical analysis, Flow cytometry for immunophenotyping, FlowJo software for analysis, gel electrophoresis.

Jan – Mar 2025 **REMOTE COLLABORATION** | Dr. Karoline Faust, KU Leuven
"Beta-testing of a new database associated with Systems Microbiology."

- Extracted, structured, and interpreted growth data of 10 different bacterial species.
- Contributed to Beta-testing of the new database.
- Acknowledged in research pre-print (doi:10.1101/2025.10.13.682118).

May – July 2024 **SUMMER INTERNSHIP** | Dr. Sindhuprava Rana, ICMR-NIREH Bhopal
"Multi-Epitope Vaccine design against the structural proteins of Langya Virus."

- Leveraged immunoinformatics to design a multi-epitope vaccine targeting 5 structural proteins of the Langya Virus.
- Suggested a novel strategy to include epitopes in the construct while maintaining solubility and biocompatibility and published the article as a co-first author.

Nov – Dec 2023 **WINTER INTERNSHIP** | Dr. Abdur Rehman, Biochemistry lab, NISER
"Introduction to Life Cycle of Tetrahymena."
- Learned confocal microscopy and cell imaging using ImageJ.

May – July 2023 **SUMMER SCHOOL** | Dr. S Mirza, IIT Indore
"Principles of Drug Discovery and Development"
- Focus: Understanding the activity of anti-inflammatory drugs and stages of drug discovery.

May – July 2022 **SUMMER INTERNSHIP** | Dr. C S Purohit, Synthetic Chemistry Lab, NISER
"Multi-step Organic synthesis of 2,6-Bis{[bis(2-pyridinylmethyl)amino]methyl}-4-(1,1-dimethylethyl)phenol by aminomethylation."
- Methods: Multi-Step Synthesis, TLC, Column Chromatography, NMR.

CONFERENCES AND CONCLAVE

- **Conferences:**
  Indibiocom Conference (2026)
  IAS-SRFP 36th Mid-Year meeting (2025)
  InBix 2025.
  Quarterly Union for Academic Disclosure (QUAD)
- Participated in **the Springer Nature India Research Conclave** (2023)

RELEVANT TECHNICAL SKILLS

- **Computational Structural Biology:** mRNA vaccine design, Molecular docking, MD simulation (CHARMM/MARTINI), Molecular modeling, AI-based protein modeling, Pharmacophore modeling.
- **Bioinformatics:** Differential gene expression analysis, Biostatistics, PPI, Network biology, Multi-omics
- **Programming:** Python, LaTeX, Java, LINUX, GPU-based computing, web tool development.
- **Wet-lab:** qPCR, RT-PCR, Gel electrophoresis, Plasmid/RNA/DNA isolation, Flow cytometry, Basic X-ray crystallography, Protein purification, Synthesis, NMR, Column chromatography.

AWARDS, FELLOWSHIPS AND SCHOLASTIC ACHIEVEMENTS

- **Competitive Exams Qualified:** National Entrance Screening Test 2021 [All India Rank (AIR) 263]; Graduate Aptitude Test in Engineering 2024 [AIR 1173]; Odisha Joint Entrance Examination 2021 [State Rank 3]; Odisha University of Agriculture and Technology 2021 [AIR 81]; National Eligibility cum Entrance Test 2021.
- **Scholarships/Fellowships:** Department of Atomic Energy (DAE)-DISHA Scholarship of 400000 INR(2021-2026); Indian Academy of Sciences-Summer Research Fellowship 30000 INR(May – July 2025).
- **Competitions:** Best poster award at IndiBioCom [2026], Finalist of BENSPARK Ideathon, IISER Pune [2025]; Excelling ranks in Olympiads (English and Science) [2017-2019]; Won multiple inter-school and intra-college quizzes.

LEADERSHIP AND RESPONSIBILITY

- **Gym Treasurer (2024-2025):** Handled expenditure and bills amounting to almost 50000 INR for NISER Gym Club; conducted powerlifting events and served as a coordinator for multiple events.
- **Student Representative (2025-2026):** Member of the Disciplinary Action Committee (DAC) for Students. Contributed actively to policy making and adjudicated cases like substance abuse and harassment to ensure a safe campus environment.

HOBBIES AND EXTRA-CURRICULAR

- **Sports:** Represented NISER in Basketball (IISM 2023) and won inter-batch Basketball tournament (2024). Represented batch in Football (2024) and Badminton (2025) while winning bronze medals.
- **Cultural:** Won multiple dance and slogan writing competitions.
- **Other Interests:** Gym; Reading about novel therapeutic strategies in free time.
